

To whom it may concern:

I am writing in support of K-LOVE radio's service to my family and to my community at large. K-LOVE provides my family, as well as the other members of my community, with positive and wholesome music and commentary 24 hours each day.

Without this positive resource in our community to counterbalance the negative effects of other, more questionable programming, the quality of available radio content could disintegrate drastically. For those of us with children, this station provides a safe place to listen without worries of inappropriate content.

Options, such as programming provided by a LPFM broadcaster, would eliminate the presence of this encouraging station on our radio dial. I believe that the service provided by K-LOVE is in the public interest because it offers hope and encouragement to many residents and offers a safe place for families to listen to the radio.
